PET GUARDIANSHIP
Companionship Supplement

If you are the owner of multiple animals and you feel strongly that any of your animals are particularly bonded and need to be re-homed together, please complete this additional document for those animals.

YOUR CONTACT INFORMATION

Your Name:                                                 Today’s date:         Phone number:                                    Email: __________

BASIC ANIMAL INFORMATION

Please list animals from your household that you feel should be re-homed together. Except in rare cases of trios, only pairs are considered for a bonded status.

*Please indicate the animal’s relationships to one another, ex. sibling to [name], parent to [name], or unrelated companion.

You have indicated these animals be re-homed together, as a pair? Please explain why.

________________________________________________________________________________________

For how long have these animals lived together? ____________________________

Please describe which of the following describe the relationship between these animals (check all that apply):

- Adored each other
- Eat together
- Slept next to each other
- Groomed each other
- Can’t live without each other
- One gives the other more confidence
- One teaches the other new things
- One will only meet new people / things if the other lets them know it’s okay

- One learns from the other
- Played together
- Will not eat if apart
- Always share toys/food etc. nicely
- Head-butt/rub each other (feline)
- Peacefully co-existed
- Plays chase games
- One always chases the other

- One does not share well
- Avoided each other
- Ignored each other
- Will fight without injuries
- Have fought with injuries
- One limits other’s access to resources
- Owner unable to describe detail of pet’s relationship to each other

- One looks for the other one / searches
- Seems depressed
- Seems nervous, unsettled
- Acts unusually only briefly
- Paces
- Acts normally
- Lack of normal interaction with others
- No noticeable changes when apart

Have these animals interacted with other animals?  □ Yes  □ No

If yes, have you seen similar behaviors (as those noted above) occur with other animals, please explain:
________________________________________________________________________________________

Have the animals ever been apart (e.g. boarding, at vet, etc)?  □ Yes  □ No  If yes, for how long? ________________

If yes, please describe what you have observed when these animals were apart (check all that apply):

- One looks for the other one / searches
- Seems depressed
- Seem nervous, unsettled
- Acts unusually only briefly
- Paces
- Acts normally
- Lack of normal interaction with others
- No noticeable changes when apart

- Other:

Is there anything else we should know about the relationship between these animals?
